To Whom it May Concern

PB Risk Management

PB Risk Management was engaged by Boodle's to help us introduce a Business Continuity Programme for the Club in 2009.

They trained our designated BCP Manager and provided us with the templates and support to collate the necessary information to properly evaluate our business impact exposures. We then worked together to establish the database required for our crisis and continuity management.

PB Risk Management have also conducted two tests of the BCP, working with our Incident Team and BCP Manager to effect a successful outcome and understand the benefits of BCP Logging.

We were most satisfied with the service provided and would happily recommend PB Risk Management's services.

A handwritten signature in black ink that reads 'Andrew Phillips'.
